

JOB DESCRIPTION: Project Manager / Site Supervisor – Roadworks (Double Surface Treatment – DBST)

Company: Pierre Brunet Entreprise Générale (PBEG)

Location: Port-Vila, Vanuatu (with assignments throughout the country)

Contract: Permanent position – Minimum 3-year commitment

Availability: Position available immediately

MAIN RESPONSIBILITIES:

- Supervise road construction projects, especially those involving double bituminous surface treatment (DBST).
 - Organize and coordinate on-site teams and ensure the proper execution of works.
 - Monitor the use and maintenance of heavy equipment in collaboration with PBEG's mechanical department.
 - Ensure work progress aligns with timelines, budget, quality standards, and safety regulations.
 - Report regularly to company management and participate in project meetings.
-

PROFILE REQUIRED:

- Field-oriented professional with **at least 10 years of experience** in road construction, particularly in DBST applications.
 - Strong technical knowledge of surface treatment methods and site logistics.
 - Proven ability to manage and motivate multicultural teams.
 - Autonomous, hands-on, and committed to high-quality execution.
 - Heavy vehicle or machinery licenses are a plus.
-

REMUNERATION:

- Competitive salary **based on skills and experience**.
 - Long-term opportunities for growth within the company.
-
